Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Priority

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Claim Objections

Claims 13 & 14 are objected to because of the following informalities: Claims are identical. Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Art Unit: 3749

Claims 1-3, 5, 6, 9, and 13-15 are rejected under 35 U.S.C. 102(e) as being anticipated by **Hytonen et al (6,578,529)**. **Hytonen et al** discloses a black liquor gun with nozzle (11) for feeding black liquor into a recovery boiler and includes a flow guidance element (15) in the longitudinal direction of the nozzle and attached to the inside of the gun nozzle to provide an annular flow channel (space between elements 15); the flow guidance element can both have a constant cross-section (Figure 2) and a cross-section diverging from a round shape and is twisted in the longitudinal direction around its longitudinal axis (Figure 4) so that with respect to the outer wall of the black liquor gun, the black liquor would be brought into rotation. The gun nozzle extends into the recovery boiler from outside the wall of the recovery boiler and likewise the guidance element since it extends in the longitudinal direction of the nozzle up to the end of the nozzle (SEE Figures 2-4).

Allowable Subject Matter

Claims 4, 7, 8, 10-12, and 16-19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
